

## **Outreach and Advocacy**

As women leave Alice Housing to live independently in the community, their need for our support services is often increased. With the exception of housing, all program services, including the Drop-In Centre and food bank, are still available to ex-tenants. Advocacy, financial management and assistance with legal procedures are high in demand. These services include:

- Assisting women with finding safe and affordable housing.
- Providing housing and/or work references if applicable.
- Accompanying women to legal and social assistance appointments.
- Providing referrals to relevant community resources.
- Assistance with child care services.
